

Bay East Roundtable Discussion

On January 29, 2013, Porus Engineer of National Budget Planners spoke at a Bay East Association of Realtors event, presented by the Home Ownership Opportunities Committee. Porus returned to the 'Credit Management for Re-Entry Buyers Roundtable' to share his knowledge about credit management and credit scores, focusing on buyers who have experienced a short sale or foreclosure, and are looking to own a home again.

The event received an overwhelming turnout, and provided a great learning and networking opportunity for Real Estate professionals and all other participants.
