

Human Services Commission's Strategic Plan

Early in the 3rd Quarter of 2013, NBP participated in the Pleasanton Human Services Commission's Strategic Plan development project. This meeting, which took place on July 8th, included a focus group that assessed needs of families and individuals in the Pleasanton community. NBP met with Resource Development Associates and fellow human service providers to help develop the community's long-term Strategic Plan.

Participants provided insight that will help identify the greatest needs and barriers to service, and ultimately shape how human services will be delivered in the near future. NBP looks forward to exploring additional opportunities for collaboration with the Pleasanton Human Services Commission.
