

NBP and TVHOC *Understanding Credit Seminar*

On February 7, 2013, National Budget Planners presented Part Two of their financial seminars. 'Understanding Credit' informed attendees of many credit-related issues, such as: different types of credit cards, inquiries into a credit score, and ranges of credit scores. Attendees were given worksheets to review their knowledge of credit-related terms, 'hard vs. soft pull,' and were also given a worksheet asking them to answer questions based on a sample credit report.

Additionally, this seminar provided useful information to those looking to improve or sustain their credit score.
