

Human Services Commission's Strategic Plan

Hands on Banking®
Money skills you need for life

Wells Fargo recently announced the launch of their Military Hands on Banking Program. This financial education service will address the financial literacy challenges and unique needs facing Military members at every stage in their careers. On September 13th, the program's launch date, NBP participated in an online presentation that offered a first-hand look at Military Hands on Banking and how it can help active service-members, veterans, and their families.

As a non-profit debt management agency offering free services to veterans and their families, NBP is excited about this new resource for veterans.
